

# ANTHONY STENMARK

## PROFILE

I'm a passionate Front-end Developer and Graphic Designer, with over 10 years of experience working across both fields, from small businesses to large enterprise. Currently focusing on cutting-edge web apps, integrated with enterprise CMS and e-commerce platforms.

## EMPLOYMENT

### Accenture Interactive

May 2017 to present

#### Front End Development Associate Manager

- + Working with Solution Architects to come up with slick, best practice, but feasible front end solutions for Accenture's clients.
- + Lead front end teams in delivery of projects
- + Build out the solutions with the teams

### Recent projects

- + Origin Energy Saver - 'Savenator'  
[ReactJS, AEM 6.3]

*To build an online energy comparison tool for Origin Energy*

Built in React and integrated into Origin's complex AEM stack, I was the FED lead on this project. This was a web animation heavy site, with a high level of interactivity and polish.

- + Samsung Global Online  
[AngularJS, Hybris]

*Build out new functionality for Samsung's online stores globally.*

As an established AngularJS based site, my role was to lead the front end team for the 'Global enhancements' stream, building new components and enhancing existing functionality. Our teams were spread across Australia, New Zealand and the Philippines.
